

## What is Homeopathy?

Homeopathy is a form of alternative medicine that is holistic, scientifically based, safe to use, inexpensive and can cure chronic disease. It is a system of medicine that is unique and different from other therapies such as naturopathic medicine, herbal medicine, acupuncture, nutritional medicine and mind-body medicine. It was founded by Samuel Hahnemann more than 200 years ago, although the principles on which it is based have been utilized in healing for thousands of years. Homeopathic remedies work by activating the body's own powers of self-regulation and self-healing. Since its inception, homeopathy has benefited people from all walks of life and of any age, in countries all over the world.

## Our Mission

- To maintain and grow a viable and sustainable institution of higher learning in homeopathic medicine;
- To provide homeopathic students with the knowledge and skills essential to the principles and successful practice of homeopathy within a technological learning environment;
- To inculcate homeopathic students with the fundamental attitudes of compassionate, humanistic patient care;
- To promote in homeopathic students a spirit and desire for lifelong independent learning and scholarship;
- To engender nationally recognized leadership in homeopathic research;

- To contribute to the well-being of the citizens of Arizona and the nation through the delivery of environmentally sustainable medicine and excellence in homeopathic patient care.
- To promote an inclusive, collaborative community for humanistic, sustainable healthcare.

## AMCH/PIHMA Dual Program

AMCH and PIHMA have developed an articulation agreement whereby students can complete both programs simultaneously or in a modified format, extending one's studies for an additional year or two.

This program is the first of its kind in the country and combines the best of both eastern and western forms of alternative medicine. Graduates will develop mastery in both Oriental and Homeopathic forms of medicine and will be fully prepared for the complexities of practice in both disciplines. Both PIHMA and AMCH are nationally renowned for their standards of excellence and innovation in healthcare

### Testimonials

"Homeopathy has completely changed my life, and by far is one of the most rewarding careers that one could hope for."

-Ben Taati, CCH, HMA

"AMCH's programs prepare its students both clinically and practically to be successful. Under the current political and medical climates, I see every reason to be optimistic about the future of homeopathy."

-Dr. Melanie Chimes, MD, MD(H), CCH
